EXPERIENCE

Persado, *Software Engineer II*   **December 2020-Present**
- Built a self-service user portal for users to generate content to use for different marketing channels
- Implemented a number of user friendly features to simplify flow and drive more revenue for clients

Skills leveraged: React, Typescript, Ruby on Rails, SQL

Persado, *Software Engineer*   **April 2019-December 2020**
- Maintained the Persado Portal, a single-page web app that uses a Ruby & Rails backend and React frontend
- Communicated with product and design teams to implement new features from end-to-end

Skills leveraged: React, Redux, JavaScript, Ruby on Rails, SQL, HTML5, CSS3

SKILLS

React, Redux, JavaScript, Typescript, Ruby on Rails, RSpec, SQL, Git, HTML5, CSS3

EDUCATION

App Academy   **Nov 2018 - Feb 2019**
Intensive web development training program with < 3% acceptance rate
Emphasizes pair programming, TDD, REST, OOP, and best practices

New York University   **Fall 2017 - Spring 2018**
Non-Degree Computer Science PAC (Preparatory Accelerated Course) Program

Yeshiva University, Stern College for Women   **Fall 2013 - Spring 2017**
BA in Physical Science, concentration in Computer Science, GPA: 3.93

PROJECTS

DoodlePop | *(JavaScript, HTML5 Canvas)*   *live* | *github*
- An interactive game that uses JavaScript and HTML5 Canvas in which users pop bubbles to advance to the next level
- Implemented Object-Oriented programming to optimize code-readability
- Employed prototypal-inheritance for game functionality to create DRY code
